OCT - 2020

TECHINICAL PROJECTS

Project Title :
Diabetes Prediction Using Machine learning Algorithm

Sedentary lifestyle, poor diet and work pressure lead the diabetes disease which may cause several fatal health issues like heart attack, strokes, kidney failure, nerve damage etc. Diabetes can be effectively managed when caught early with high accuracy. Machine Learning (ML) approaches are very effective to early detection and prediction of diabetes

CERTIFICATIONS

Got NPTEL Online Certificate in

"CLOUD COMPUTING".

TECHNICAL SKILLS

- java
- Manual Testing
- SQL

STRENGTHS :

- Good communication skills
- Team building skills
- Ability to build good interpersonal relationships.

-Hard working
